A Christmas Party

John's class is going to have a Christmas party on 20th December at school. The teacher asks John and his classmates to prepare some food for the party and decorate the classroom.

John writes a shopping list. Then he goes to the supermarket with his mother. John buys some biscuits, potato chips and some orange juice. He also buys ten party blowers, same balloons and a Christmas banner.

On the party day, John and his classmates decorate the classroom first. Then they put a lot of yummy food on the table. When the party starts, they sing Christmas carols, play party games, and exchange Christmas presents. John and his classmates are very happy because the Christmas party brings them unforgettable memories.
