Dear Kaylia,

How are you?

My parents and I go to Australia for one week. We visit the safari park and see many animals. My favourite animal is the hare because it is special. It lives in the forest. It is grey and brown. It is small. It has a short and fluffy tail. Its ears are long and soft.

It likes to eat carrots and vegetables. It can hop high and run quickly. It can't swim in the sea or fly in the sky.

What is your favourite animal?

Please write back soon.

Love,

Tom
