

Adopting a Lost Cat

Today, Tom and his mum are going home after school. The weather is cold and windy, so they wear coats and scarves.

On their way home, they walk past a tree. They find a little cat inside a paper box. It has short whiskers, a fluffy tail, soft fur and furry paws. The cat is shivering. Tom feels sorry for the poor cat.

The cat feels hungry and sad. Tom's mum says, "Let's take it home." Tom nods and picks up the cat.

Tom and his mum take the cat home. Then, Tom's mum goes to a pet shop. She buys some cat food and daily necessities for the cat. She buys a brush, a nail clipper, a bowl, a pet carrier and a blanket. Since the cat is separated from its owner for a short time, Tom's mum buys some pet toys to comfort the cat. Tom says, "We will always take good care of the cat!"
